

# Unity

V.01A APR 2014

## Seeking the Availability of .22 Pistol Shooting within the UK

The shooting disciplines represent some of the most diverse sports available, comprising a wide variety of choices and offering something for everyone.

A cornerstone of the sport is inclusiveness. It offers opportunities to participate and compete for able-bodied and the disabled alike. Even the visually impaired can participate safely with appropriate support.

With this in mind, we have prepared the Unity campaign. This seeks to enhance shooting sports by supporting the internationally recognised discipline of pistol shooting in England, Wales and Scotland.

Our initial action, where we wish to enlist your support, is our petition to HM Government. The petition requests that the necessary changes are made to Acts of Parliament that would allow for .22 rimfire pistols to be owned and used for target sports under the current section 1 certification system.
